Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

0785 '99 MAR 22 10:15

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

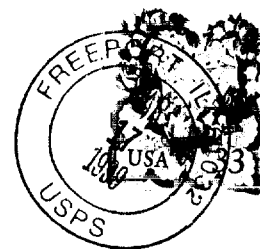

Patricia A. Hebut

COMMENTS: This is ^{one of} the most preposterous propositions
initiated by the FDA that I have heard of! There are
many reasons for making that statement but I'll only
explain what the personalized compounding of ~~my~~
natural hormones has done for me. After years of
taking the "one-size-fits-all" ^{HRT} in spite of my expressed
concerns to my physicians, I developed a vaginal
discharge which was dismissed by my physician as
"just caused by the HRT I was taking" and "other
women had the same discharge." I also had sleep problems
as well as vague feelings of "not-wellness."

When I heard of compounding pharmacies, I
contacted one (Madison Pharmacy). Since using the
HRT tailored to my specific body chemistry, I no longer
have the problems mentioned above; I feel great! and
it is such a relief. Please fold, seal, and mail by March 22 to no longer worry
about taking too much or the wrong kind of estrogen! C301
98N-1265 Do not limit women's choices: that's not the purpose
of government! Please. PHebut
